

# Transform your label-free interaction analysis

Simpler and faster without compromising data quality.

## Biacore™ 1 series

One needle, six flow-cell platform with automated and standardized evaluation of SPR data.

### Quality SPR data from day one

- No programming skills needed
- Fast and flexible exploratory studies

### Clarify the complex world of biotherapeutics

- Innovative injection tools for versatile assay design
- Maximize assay set up and reduce your running cost

### Exceptional sensitivity for analyzing unstable binders

- Detect samples down to 1 pM
- Queue up methods to free up time and save sensitive samples

Focus on generating the consistent and reproducible data needed in your research.
